

Group Members

- Lana Vu

Additional Features

1. Crew System (Friending System)

- Users can send, receive, and accept friend requests to build their crew list (friends list).
- Users can view their Crew List (friends list).
- Users can view other accounts.
- The feature closely resembles how connecting works in social media applications.

2. Block System

- Users can block and unblock other users.
- Blocking users can affect interactions within the Crew System such as adding others or interacting with them.
- Users can view their blocked list.

Other Implemented Features

1. Account Information

- Users can edit their favorite role and color from the Amongus game alongside changing username and password.

2. Messaging System

- Users can send and receive messages.

3. Tip Board

- Users can upload and delete tips.
- Users can view tips.

Limitations / Shortcomings

- Clip share: I decided to not implement this due to timing and prioritization near finals week.
- Tip board: for deletion, I decided not to implement a section where users can look at their tips, and decide which tip to delete because of timing.
- A like system for tips was planned but not implemented because of time.
